**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We choose a competitive provider since they provide a better service than AT&T.

We are using AT&T U-verse for and the line to our business is only 3Mbps. They could not provide more since the distance is too far. After a few hot days recently, the AT&T internet seems to drop frequently, they came and asking us to compromise a solution to downgrade the speed to 1.5Mbps instead of improving their line.

Sonic provides us another Internet that combines 2 phones lines and their speed can reach to 8.8Mbps without any problem.

Yes of course we will say NO to price hikes that will increases the cost of internet and telephone services.

We ordered Time Warner and recently ordered Spectrum, but they both turned us down that they do not have the service at our location. So they line from SONIC is a highest speed and pretty consistent line that we can have for our works.

Please do your best to save competitors like them!
